The Gypsy Crown

Book 1 (set in 9th August - 12th August 1658) in the *Chain of Charms* series, an adventure series set amongst the gypsies of Cromwell's England.

Once there was a gypsy queen who wore on her wrist a chain of six lucky charms - a golden crown, a silver horse, a butterfly caught in amber, a cat's eye shell, a bolt of lightning forged from the heart of a falling star, and the flower of the rue plant, herb of grace. The queen gave each of her six children one of the charms as their lucky talisman, but ever since the chain of charms was broken, the gypsies had been dogged with misfortune.

Maggie has given them the first charm - an old gold coin - but Luka and Emilia must escape the brutal thief-taker, Coldham. With a horse, a monkey, a dog, and a huge brown bear in their train, it is hard to travel secretly as they flee across the Surrey countryside. With a little bit of luck - or, as Emilia believes, magic - they manage to escape, but Coldham will not give up so easily.

Artemis Fowl And The Lost Colony

Thousands of years ago, fairies and humans fought a great battle for the magical island of Ireland. When it became clear that they could not win, all of the fairies moved belowground-except for the 8th Family, the demons. Rather than surrender, they used a magical time spell to take their colony out of time and into Limbo. There they have lived for decades, preparing to exact their violent revenge on humans.

Now the time spell is unravelling, and demons are beginning to materialise without warning on Earth. If humans were to find out about them, all fairies would be exposed. To protect themselves, the fairies must predict when the next demon will materialize. But in order to do so, they will have to decipher temporal equations so complicated; even a great brain like Foaly can't understand them. But he knows someone who can: Artemis Fowl.

So when a very confused demon imp appears in a Sicilian theatre, Artemis is there to meet him. But he is not alone. There is someone else who has unlocked the secrets of the fairy world and managed to solve complex mathematical problems as only a genius could. And she is just twelve years old...

Geraldine McCaughrean

Peter Pan in Scarlet

The product of a contest commissioned by trustees at London's Great Ormond Street Hospital, owner of the copyright to J. M. Barrie's original *Peter Pan*, this authorised sequel succeeds in revisiting Neverland and exploring parts of that classic destination never before seen. Tim Curry's narration is delightfully subtle, taking great care to introduce listeners to new characters (Fireflyer, a male fairy) and reacquaint them with old ones (Wendy and John Darling, Peter).

As the central plot unfolds – a return by the League of Pan to Neverland, and their treasure-hunting adventures there with Peter – Curry particularly delights in giving voice to Ravello, a tattered lion tamer.

Slightly darker than the original *Peter Pan* and full of gleaming characterisations, McCaughrean's follow-up is beautiful in its own right.

Suddenly the sky peels away like fabric and from the gaping hole fall two curious-looking children. Peter Schock and Kate Dyer have fallen straight from the twenty-first century, thanks to an experiment Kate's father was running with an antigravity machine. Before Gideon and the children have a chance to gather their wits, the Tar Man has taken off with the machine and Kate and Peter's only chance of getting home. Soon Gideon, Kate, and Peter are swept into a journey through eighteenth-century London, over the routes of notorious highwaymen, and even into King George's palace and form a bond that, they hope, will stand strong in the face of unfathomable treachery. Historical detail comes alive as debut author Linda Buckley-Archer weaves the eighteenth-century trials of Gideon, Kate, and Peter with the modern-day worries of their parents and the wily investigator trying to piece together the children's disappearance. A time-travel tale in the tradition of Mark Twain with a touch of Back to the Future, the first audiobook of the Gideon trilogy introduces listeners to a modern genre all its own.

Monster Blood Tattoo – Book 1: Foundling

“Night, they used to say, was when monsters grew bold, when the knickers roamed and the bogles haunted.”

Rossamünd Bookchild, a boy saddled with a girl’s name, journeys from Madam Opera’s Estimable Marine Society for Foundling Boys and Girls, assigned to wander the dark roads at dawn and dusk as a lamplighter. In the first book in the Monster Blood Tattoo series, Rossamünd faces a world at war with creatures such as the Grinnings with their wicked, grinning mouths.

The world building of the Half-Continent is expertly envisioned and peopled with intriguing characters: the evil Poundinch (who tricks Rossamünd onto the wrong boat early in his travels) and the beguiling Europe, an experienced monster killer (and slayer of men’s hearts), who prefers tiny x-shaped tattoos to mark her kills instead of the usual monster-faced blood ones. The unique and fascinating Half-Continent, where ships with organic engines sail caustic vinegar oceans and monster-hunters gain supernatural powers through dangerous surgeries, is a delightful, refreshing standout in a sea of cookie-cutter fantasy worlds.

Alone On A Wide Wide Sea

There were dozens of us on the ship, all ages, boys and girls, and we were all up on deck for the leaving of Liverpool, gulls wheeling and crying over our heads, calling good-bye, I thought they were waving good-bye. None of us spoke. It was a grey day with drizzle in the air, the great sad cranes bowing to the ship from the docks as we steamed past. That is all I remember of England!

When orphaned Arthur Hobhouse is shipped to Australia after WW II he loses his sister, his country and everything he knows. The coming years will test him to his limits, as he endures mistreatment, neglect and forced labour in the Australian outback. But Arthur is also saved, again and again, by his love of the sea. And when he meets a nurse whose father owns a boat-building business, all the pieces of his broken life come together. Now, at the end of his life, Arthur has built a special boat for his daughter Allie, whose love of the sea is as strong and as vital as her father’s. Now Allie has a boat that will take her to England solo, across the world’s roughest seas, in search of her father’s long-lost sister. Will the threads of Arthur’s life finally come together?

Samurai Shortstop

Tokyo, 1890. High school can be brutal, even in turn-of-the-century Japan.

From his first day at boarding school, Toyo Shimada sees how upperclassmen make a sport out of terrorizing the first-years. Still, he's taken aback when the seniors keep him from trying out for the baseball team-especially after he sees their current shortstop. Toyo isn't afraid to prove himself; He's more troubled by his uncle's recent suicide.

Although Uncle Koji's defiant death was supposedly heroic, it has made Toyo question many things about his family's samurai background. And worse, Toyo fears that his father may be next. It all has something to do with "the way of the warrior" but Toyo doesn't understand even after his father agrees to teach it to him.

As the gulf between them grows wider, Toyo searches desperately for a way to prove there is a place for his family's samurai values in modern Japan. Baseball might just be the answer, but will his father ever accept a "Western" game that stands for everything he despises?
